

## Polygreen Lawn Pad

### 3/4" Medium Density Lawn Pad – Planed on one side

- Polygreen Lawn pad is a high quality environmentally friendly shock absorbing and drainage pad for use beneath commercial and residential synthetic turf systems.
- Polygreen Lawn pad is made from 100% recycled, non-contaminated post industrial cross link closed cell polyethylene foam. The product is 100% recyclable.
- The highly porous design of Polygreen Lawn Pad underneath synthetic turf enhances field drainage both vertically and laterally.
- Depending on local soil conditions, Polygreen Lawn pad can be used as partial or total replacement of crushed stone beneath turf.
- Features a geotextile fabric on one side of product to inhibit weed growth.
- Material does not absorb water or other liquids so it is ready to play shortly after rain stops.
- Polygreen Lawn is highly elastic so it retains its shock absorption characteristics for many years.
- Polygreen Lawn is completely free of rubber.
- Polygreen Lawn is lead and heavy metal free.
- Material is non-degradable.
- 8 Year Warranty with 2-3 turf cycle life expectancy.
- Available in 4' X 210' rolls or 4' X 6' rectangle panels.

**Material Composition:** 100% Recycled, non-contaminated, post industrial, cross-link, closed cell polyethylene foam. Test Data & MSDS sheets available on request

	Measurement	Test Method	Results
Weight	Average		.75 – .95 lbs per square foot
Thickness	Direct		.75" +/- 1/16"
Density	Average		9-11 lbs/cubic feet
Tensile Strength		ASTM 3574	34-36 PSI
<b>Drainage Characteristics</b>			
Horizontal Flow Rate	Average	ASTM 4716, 250 PSF; .5% Slope	.8527 Gal/Min/Ft
Vertical Permeability	Average	ASTM D 2474	>36 Gal/Min/Sq Ft
Transmissivity m2/sec	Average	ASTM 4716	4.25E-004
